

Openbank launches its Christmas prize draw with €400,000 in prizes for anyone that opens a deposit

- Openbank is to give away 115 prizes to customers and non-customers that save at least €5,000.

Openbank, the 100% digital bank of the Santander Group, is launching one of the biggest campaigns in its history: its Christmas prize draw. In this draw, 115 prizes are up for grabs to participants who deposit at least €5,000 into a six-month deposit at 3.07% APR.

Participants, whether Openbank customers or not, may enter the draw and become eligible for one of the following prizes: one prize of €250,000 (gross); four prizes of €25,000 (gross); ten prizes of €2,500 (gross) and one hundred prizes of €250 (net).

For every €5,000 paid into a deposit, one entry into the draw will be received. There is no maximum number of entries per participant.

Both new and existing customers may take part by increasing the balance they had on 30 June via the Openbank website or app or by signing up by phone before 31 December (inclusive). In all cases, the deposit must be maintained for the established six-month term.

The Christmas prize draw winners will be announced during the last fortnight of January 2024 and winners will receive the prize in their current accounts in February 2024.
